- Households without Children

These amounts are combined from ES/TH/Unsheltered Counts

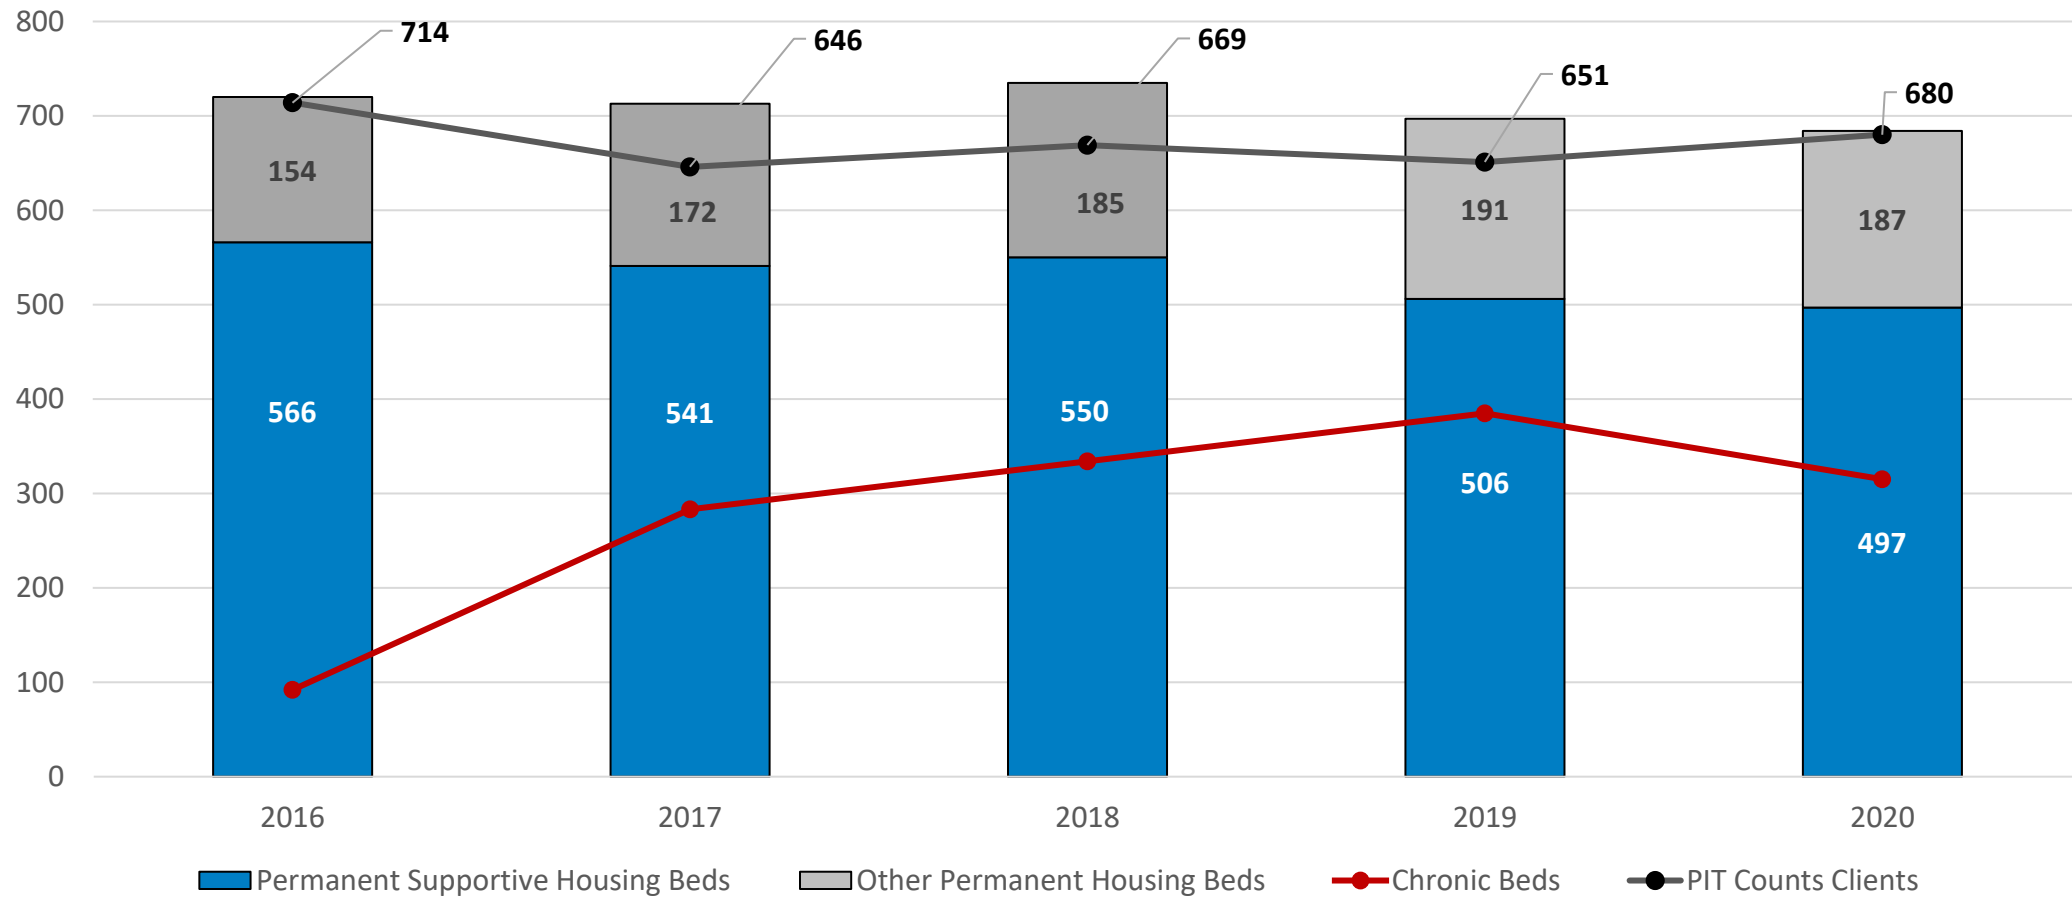

# HIC: Emergency Shelter Beds

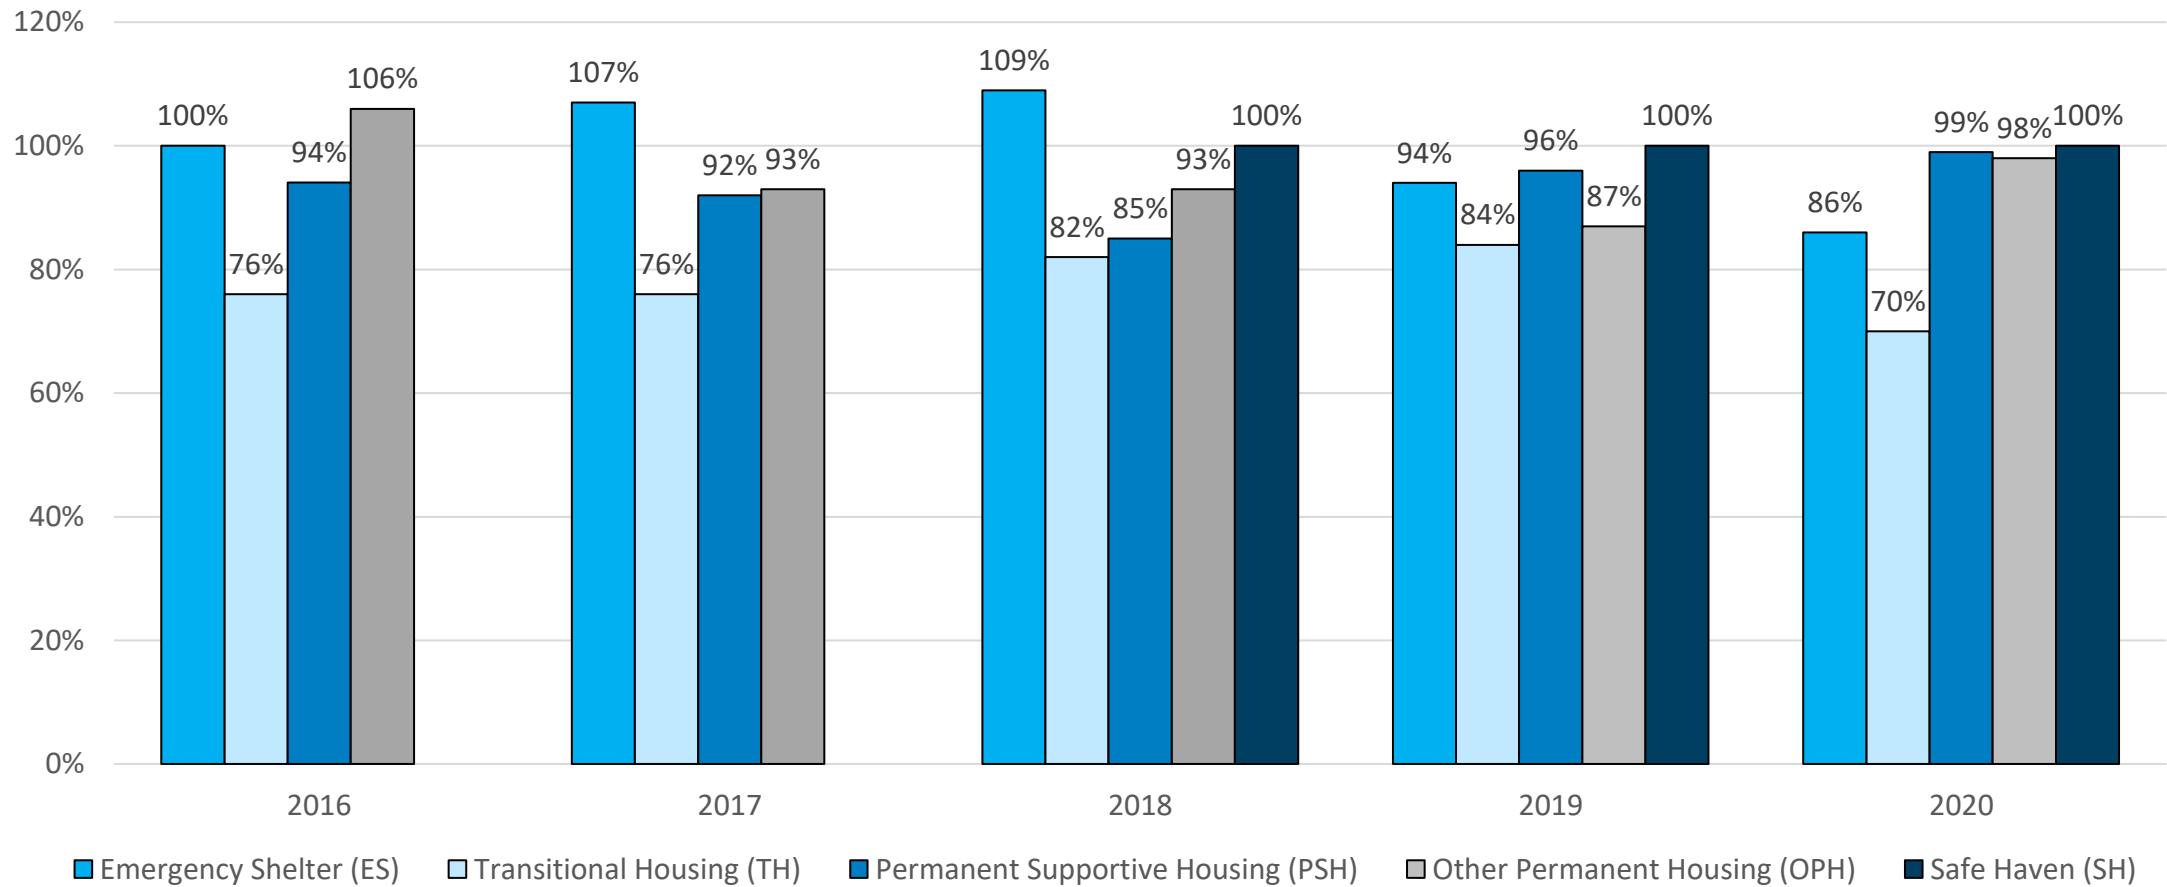

# HIC: Transitional Housing Beds

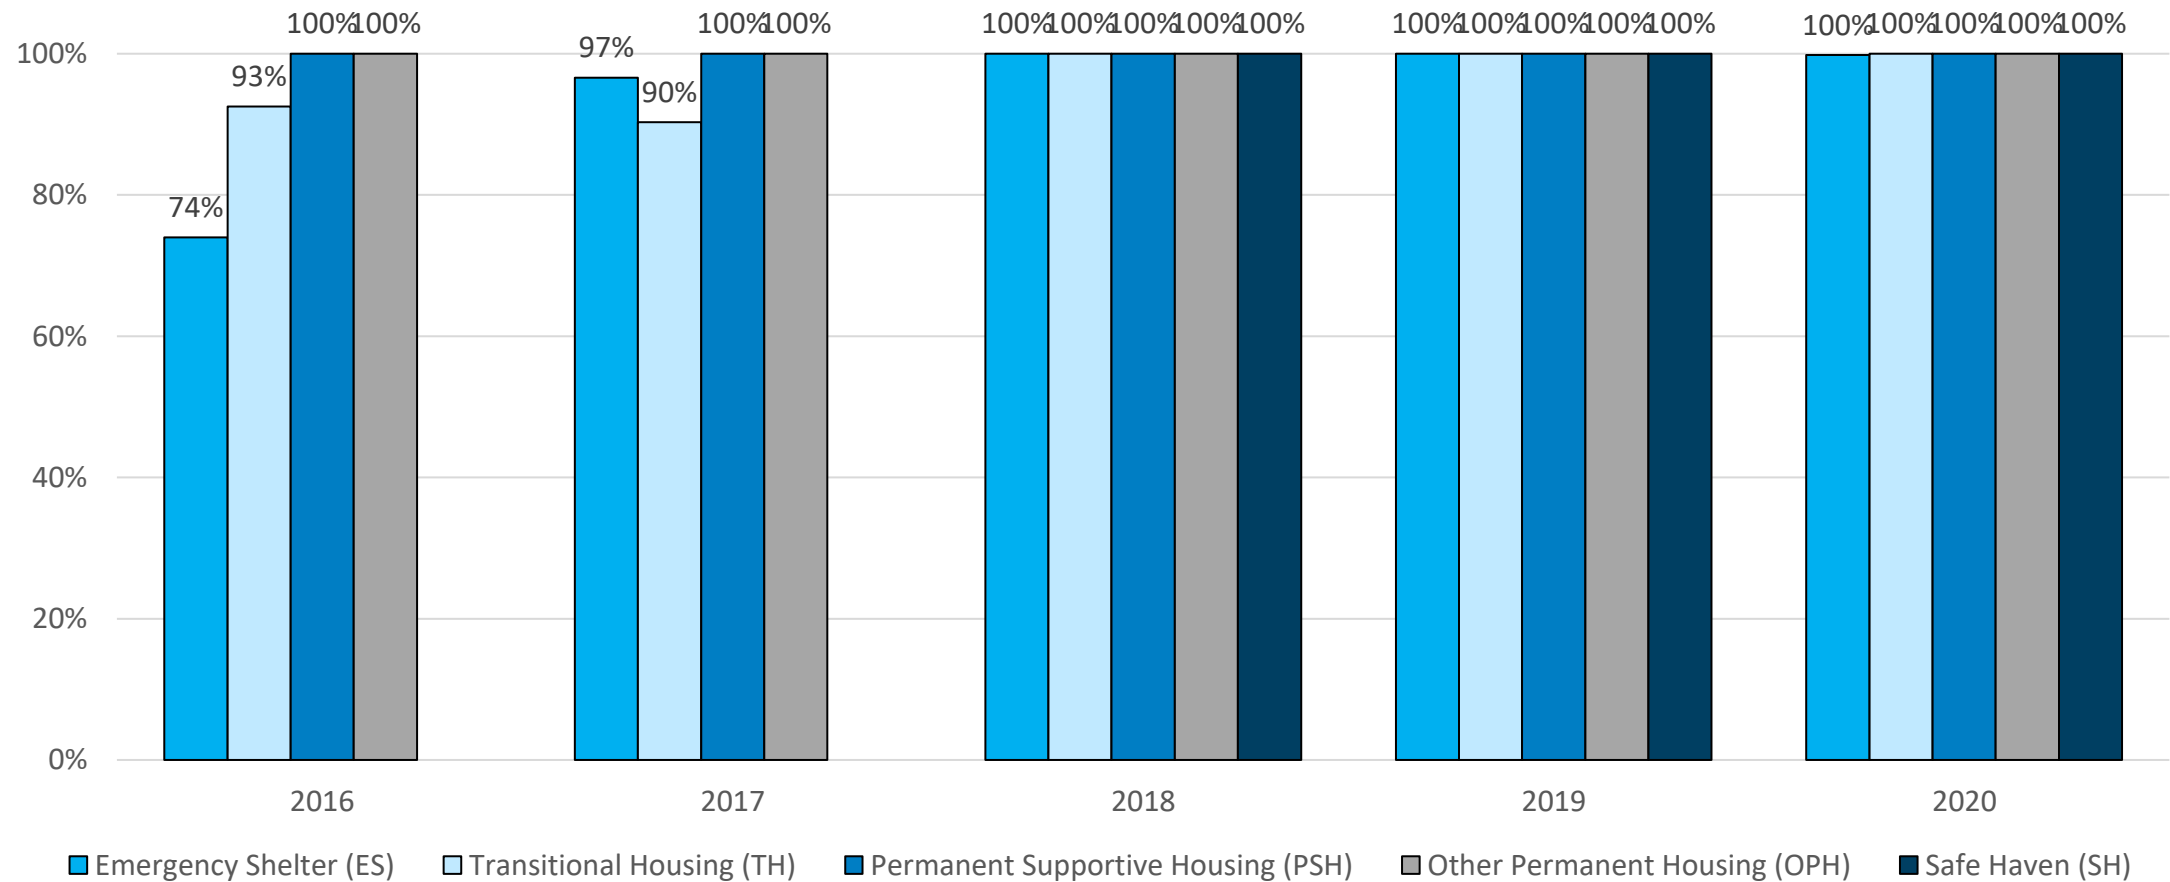

# HIC: Permanent Housing Beds

# Bed Utilization

# HMIS Bed Coverage

# Results Summary

---

- Overall reduction in population for the Des Moines/Polk CoC. Reduction due to substantially lower sheltered population (ES and TH)
- Unsheltered population increased from 92 in 2019 to 130 in 2020. This increase is approximately what the provider community expected based on the last two summer PIT counts. It is likely that 2019 is the outlier of the set.
- Youth subpopulation continues to decline, while Veteran subpopulation stayed approximately the same
