The *Alaska* HMIS

What is the Alaska Homeless Management Information System (HMIS)?

The Alaska HMIS is the database used in the State of Alaska to collect client-level data for housing and services provided to individuals and families at-risk of and experiencing homelessness.

What is HMIS used for?

Case Management
Assessing clients' needs for improved client care.

Analysis
Evaluating how organizations can better meet the needs of people with unstable housing.

Housing & Shelter
Connecting clients with housing, services, and shelter.

Funding
Applying for local, state, and federal funding.

Implementing Change
Informing policy change at local, state, and federal levels.
