Under Age 18	81	13%
Persons age 18 to 24	40	6%
Persons age 25 to 34	107	17%
Persons age 35 to 44	154	24%
Persons age 45 to 54	132	20%
Persons age 55 to 64	109	17%
Persons over 64	21	3%

These amounts are combined from ES/TH/Unsheltered Counts

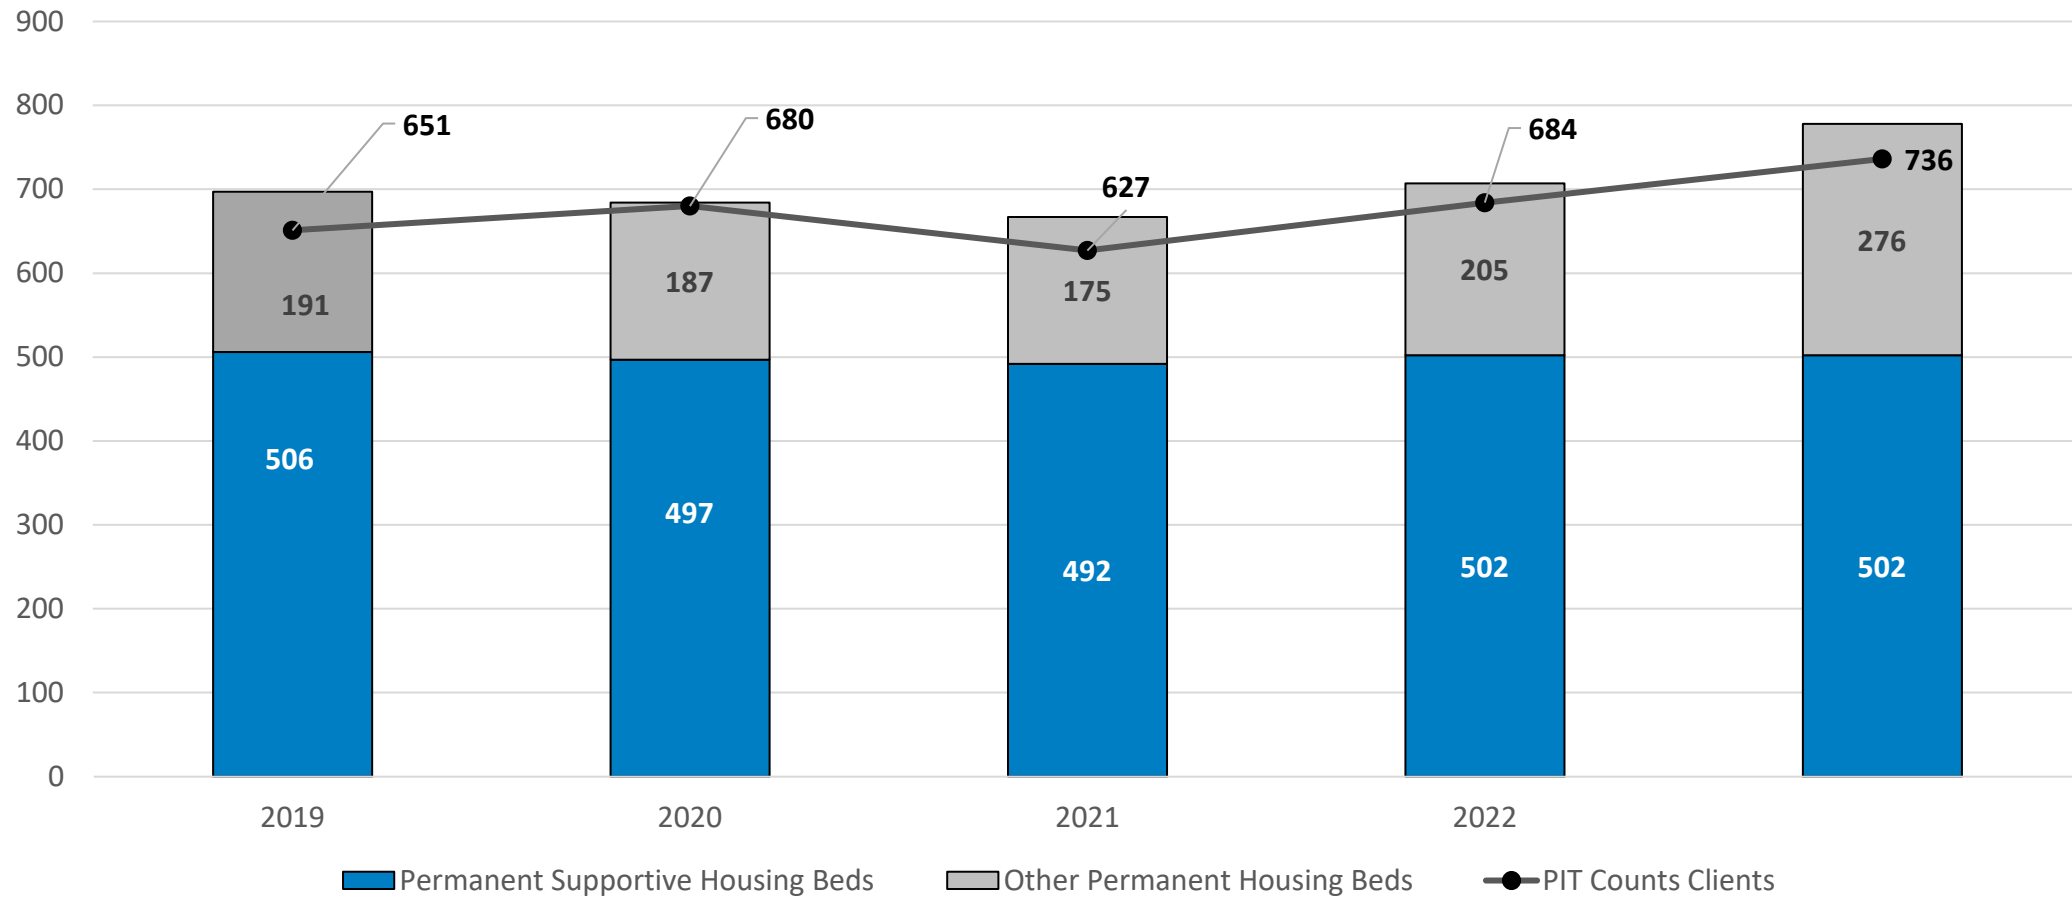

HIC: Emergency Shelter Beds

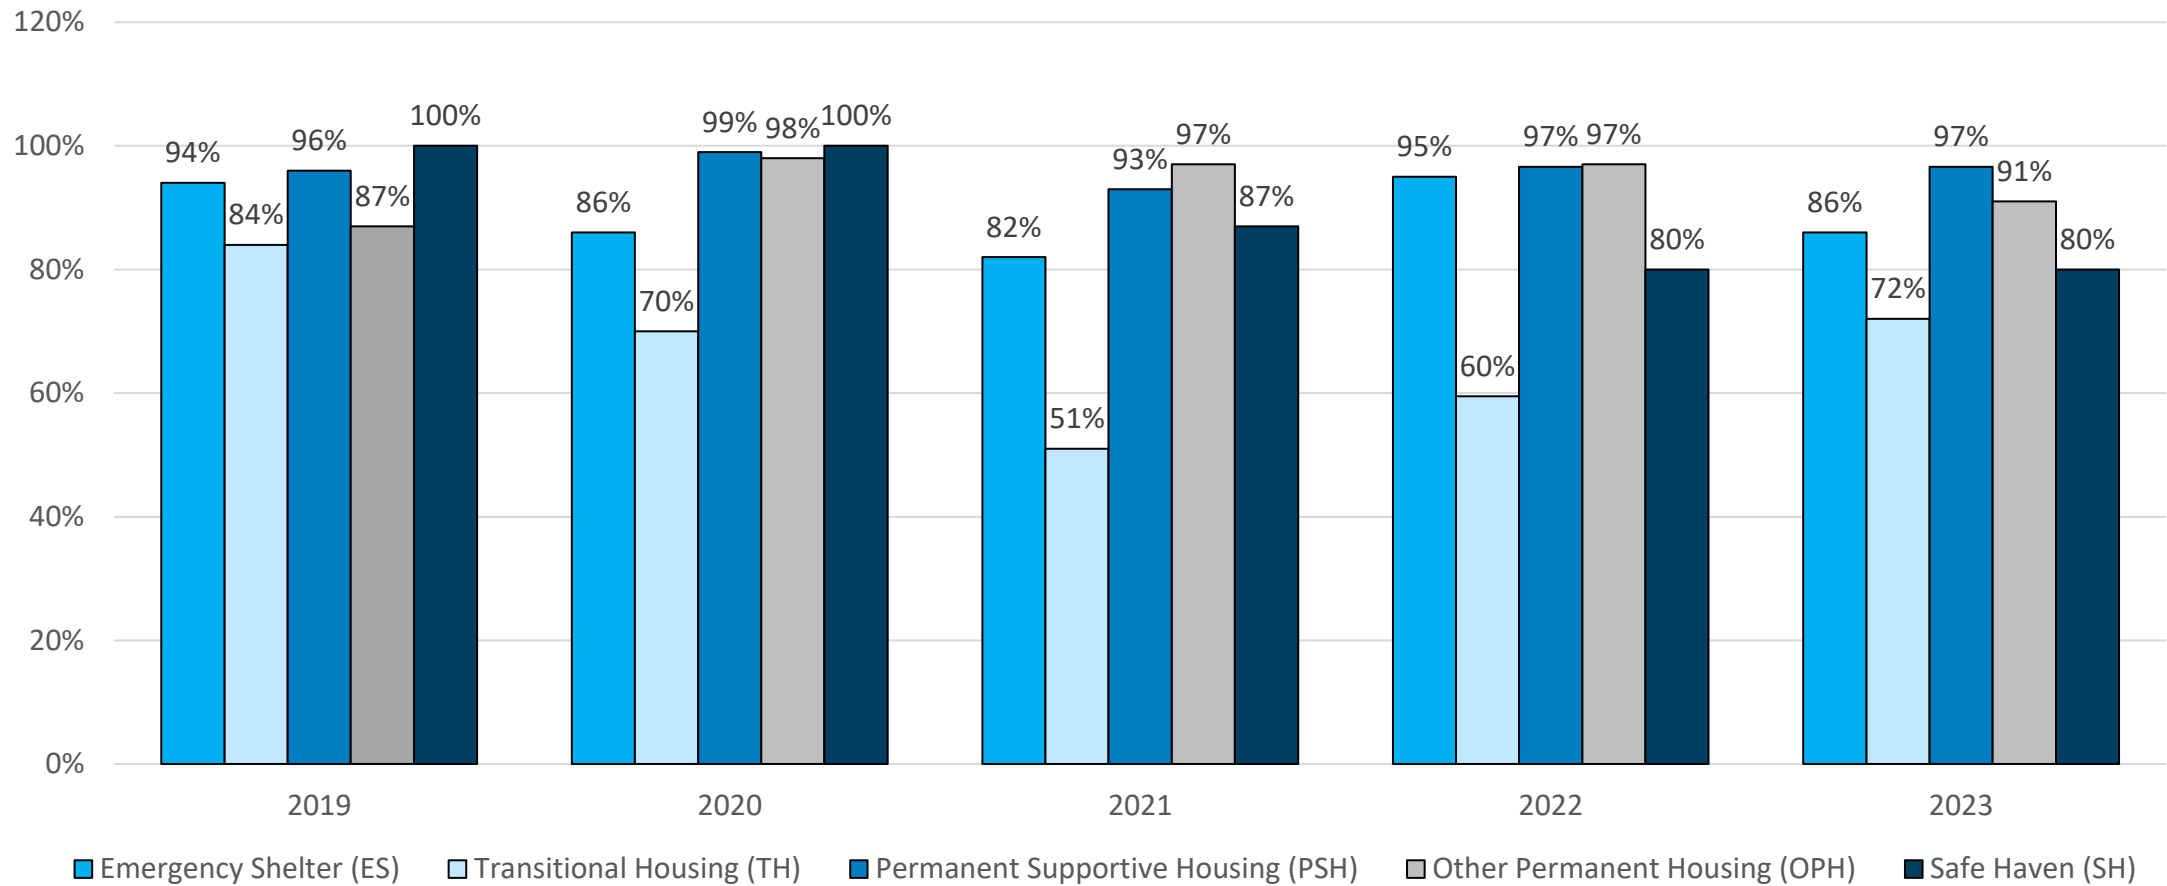

HIC: Transitional Housing Beds

HIC: Permanent Housing Beds

Bed Utilization

Summary

- In summary, PIT totals reflect a return to pre-COVID service utilization among populations utilizing emergency shelter
- Unsheltered count is essentially the same as 2020 pre-pandemic total, but also fits larger trend of overall unsheltered increase
- Youth homelessness and veteran homelessness continue to decrease due to coordinated efforts and right-sizing of resources to best serve those populations
- Aging homelessness is currently not the same level of concern that it is at the national level
