

## Coordinated Entry (CE) Release of Information (ROI)

### What is Coordinated Entry?

Coordinated Entry is a collaboration of housing and service organizations that provide a streamlined way for you to access homeless housing resources in our community based on our availability of resources, and your current needs. By coordinating our resources, we can match you to those available resources appropriately. Through coordination with other homeless service providers, navigation services can be provided to you which would include the following: assistance with obtaining documentation for various housing resources & assistance in ensuring continuity of care when accessing multiple housing providers within our community.

### How Will My Information Be Used?

The information you share during the assessment process is entered into a database called the Homeless Management Information System (or "HMIS"). You have the right to decline to share personally identifying information and still have access to resources. Your willingness to share personal information assists us in better serving you, because it enables service providers to coordinate intentionally as a team regarding your current situation and match you to the best available resource.
